

LINKSYS®

Nobody Makes Networking Easier!

54 Mbps

wireless - G

Wireless-G устройствата на LINKSYS са напълно съвместими със стандарта 802.11g и позволяват скорост на безжичния трансфер до 54 Mbps, подобрена сигурност, WEP криптиране и филтриране, както и комуникация с 802.11b (11 Mbps) безжични мрежи.

Докато другите ги търсят - Вие вече ще ги ползвате!

WAP-54G

54 Mbps Access Point
with bridging support!

107.25 USD

- 2.4 GHz, 54 Mbps Wireless Access Point;
- Fully support for old Wireless - B devices;
- Advanced wireless security with:
 - 128-bit WEP Encryption;
 - MAC address filtering
- Web-based configuration and management;
- Supports Wireless Bridging & Event Logging;
